3. **Maine Needs a Brazilian Steakhouse:** Berger, Giess, Gillespie, Lobo, Sparks
4. **Team 0-16:** Cahill, Goldberg, Marcus, Nambiar, Wei
5. **End the Fed:** Canaday, Hartnett, Oakes, Peckham, Yang
6. **Winter is Coming:** Chapman, Chen, Hummell, Pinette

For the internal Fed Challenge, each team will have 25 minutes. The end goal is to prepare a 15 minute presentation describing current macroeconomic conditions, and suggesting actions that you believe the FOMC should take at its next meeting. About 10 minutes of questions will follow each presentation.

The second and third homework assignments will be group projects designed to help you move towards the final product. Although the first homework assignment is an individual assignment, it may be a good idea to meet to discuss it as a group as a way to get organized.
